Release Notes for SimplerQMS Patch 3.0.2

ID	Description	Improvement
SQ-37	Disable the "warning message" where users are told that permissions are changing	Improving the user experience. Prompt messages reminding of a potential loss of permissions when changing or creating a document have been disabled. 
SQ-171	Clean up/remove obsolete settings on admin site	Performance improvement. No changes on the user interface.
SQ-220	Admin accounts selectable option in customers systems	Bug fix. In some cases, an admin account has been showing up as a value selection item.
SQ-263	Nearly invisible icons on metadata card	UI improvements. Ribbon bar color on the metadata card caused a low visibility of icons.
SQ-296	Include DateFormatter in SimplerQMS App	Performance Improvement. No changes on User Interface.
SQ-300	Change Site Permission Model: Using User Groups instead of Users for Site permissions	Improving performance for recalculation of permissions on objects when removing or adding users to the site, resulting in a faster permissions processing for adding/removing users to a site.
SQ-301	Upgrade VAF to newest version.	Stability Improvement. No changes on User Interface.
SQ-305	Replace "Set property" event handlers	Performance Improvement. No changes on user interface.
SQ-309	Reduce versioning amount caused by workflows steps	Performance Improvement. No changes on user interface.
SQ-311	Combine vault applications into one	Performance Improvement. No changes on user interface.
SQ-313	Check Date formatter vault app for "Set properties" event handlers	Performance improvement. No changes on the user interface.
SQ-314	Suggestion to new assign to rule on docs in state modify reviewers list	For Controlled documents, Templates, CAPAs and Change Requests assignments have been sent out to multiple recipients when modifying the reviewers list. Assignments will be only sent out now to the person making the change
SQ-315	Clean up Unique Number Sequence / Unique Number Enforcement	Removing Legacy Data, Improving Performance. Improving the title of "Periodic Reviews" by using the version numbering of the related released

ID	Description	Improvement
		document.
SQ-316	Update Compliance Kit (v21.12.1057.19)	Improve System Stability. No changes on user interface.
SQ-322	Give Related Person(s) access to documents even if on Classified DocType or Project	Only people mentioned on the metadata in ROLES have been able to see the docs, and those given access to the doctype. Changed so "Related persons" will receive access to the documents as well.
SQ-335	Optimized "Controlled Document Processing" Workflow	Improving Performance by reducing versioning amount. Workflow processes running in the backend have been improved.
SQ-336	Optimized "CAPA Document Processing" Workflow	Improving Performance by reducing versioning amount. Workflow processes running in the backend have been improved.
SQ-337	Optimized "Change Request Document Processing" Workflow	Improving Performance by reducing versioning amount. Workflow processes running in the backend have been improved.
SQ-342	Workflow: Periodic task processing - permission to sign	Bug fix. Responsible persons have been not able to complete a periodic task.
SQ-354	Clean-up Managed Properties	Removing legacy data. Improving performance by removing not used settings.
SQ-355	Clean-up Version Control Lite	Removing legacy data. Improving performance by removing not used settings.
SQ-359	Clean-up Object Creator	Removing legacy data. Improving performance by removing not used settings.
SQ-366	Uninstall obsolete UI extension "Theme Editor"	Removing legacy data. Improving performance by removing not used application.
SQ-369	Optimized "Controlled Doc.Colection Processing" Workflow	Improving Performance by reducing versioning amount. Workflow processes running in the backend have been improved.
SQ-414	Template Authors have been able move the template from Review Ongoing → Modify Reviewers list, even though they are not able to do changes to the documents meta data in this state	Permissions for doing the state transition have been removed.
SQ-415	Template Authors have not been allowed to do the state transitions for the templates: <ul style="list-style-type: none"> Review Ongoing → Reject Template - Send Back to Draft for Editing Review Closed → Reject Template - Send Back to 	All transitions which lead to a new draft are now allowed to be done for "Template Author(s).

ID	Description	Improvement
	Draft for Editing <ul style="list-style-type: none"> Awaits Approval Signatures → Reject Template - Send Back to Draft for Editing 	
SQ-417	Some customers have experienced errors when routing a document for a new update	Has been fixed for the affected workflow: Controlled Document Processing.
SQ-420	When an unreleased document with the workflow "Controlled Document Processing" is rejected from approval, it goes to "Awaits Updates"	Changed the state transition to travel to the correct state "New Draft".
SQ-421	When a template in version 2 with the workflow "Controlled Template Processing" is rejected in the approval or review state, it travels to "New Draft"	Fixed by defining the correct state "Awaits Template Update".
