Release Notes for SimplerQMS Patch 3.1.2

Improvements

ID	Description	Improvements
SQ-491	Product cannot be related to CR but it is mandatory for adding relation to product lot number	Product Items can be related to Change Requests. When a product item is named in the Relation field, it cannot be associated with the Change Request as a Controlled Item and vice versa.
SQ-566	Allow Recorded Issues to be updated in all states	Recorded Issue Documents can now be updated to a new major version in any state
SQ-585	Actions, CAPA Assessment, Doc Review: Completed in time is not set	CAPA Effectiveness Assessments, Periodic Document Reviews, Actions, and Reminder Tasks display if the assignment has been completed on time
SQ-588	Training: Simplify Read & Understood process	Removal of an additional state transition to improve performance on training record completion
SQ-584	Copy Actions	Option available to Create Copy for Actions

ID	Description	Bug Fix
SQ-597	Prevent rollback between major versions	A recent discovery showed that some states allowed to roll back to previous major version in the document history. Preventive measures have been implemented to restrict this option.
SQ-531	Both Department and Departments is shown in the expanded view of a Person	Department list is kept.
SQ-564	Prints should only be recalled when new version of doc is effective, not for learning	Recall will only be initiated once the effective date of a document is reached, and not in the For Learning state. The recall deadline is 2 business days after Effective Date.
